

SYARFANDI "ANDI" ACHMAD

System Administrator / SRE Makassar, Indonesia | [+62 852-5652-2335](tel:+6285256522335) | syarfandi.achmad@gmail.com | [Portfolio: syarfandi.github.io](https://syarfandi.github.io) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Reliable System Administrator with 4+ years of experience in managing high-availability on-premise and cloud server environments. Expert in Linux (Ubuntu/CentOS/Debian) administration, server hardening, and complex networking. Proven track record of managing massive mail server clusters (Mailcow) and regional government infrastructure. Dedicated to ensuring 99.9% uptime and robust security through proactive maintenance, automation, and backup strategies.

TECHNICAL SKILLS

- **OS Administration:** Linux (Ubuntu, CentOS, Debian, RHEL), Windows Server
- **Infrastructure:** On-Premise Servers, Data Center Management, Colocation
- **Virtualization:** Proxmox VE, VMware ESXi, KVM, VirtualBox
- **Mail Services:** Mailcow (Dockerized), Postfix, Dovecot, Rspamd, ClamAV
- **Security:** Server Hardening (CIS), Fail2Ban, IPTables/UFW, VPN (OpenVPN, WireGuard), SSL/TLS
- **Database Admin:** PostgreSQL, MySQL/MariaDB (Replication, Backup, Tuning)
- **Monitoring & Automation:** Zabbix, Prometheus, Grafana, Bash Scripting, Python
- **Storage & Backup:** RAID Configuration, rsync, Proxmox Backup Server, Cloud Backup

FEATURED PROJECTS

- [Kawan Sedarah \(Blood Stock\)](#): A **command center** dashboard that tracks **blood stock** availability across donor units in **real-time**, powered by **Supabase** as its core backend.
- [Portal Data Sulsei](#): A unified information system delivering **data visualization**, **monitoring**, and religious **statistical analysis** across all districts in South Sulawesi in **real-time**.
- [AI Virtual Assistant](#): A **Conversational AI**-powered virtual assistant featuring **Realtime Lipsync** on 3D avatars, backed by **Voice AI** and **LLM** for immersive conversational interactions.
- [GetKasir Enterprise POS](#): A large-scale **Enterprise** POS ecosystem with **100+ modules**, integrating **AI**-driven sales prediction, **biometric** authentication, and a scalable **cloud-native** architecture.
- [PPID Kemenag Kota Parepare](#): A public information disclosure portal for **PPID Kemenag** providing access to **official documents**, **performance reports**, and an intelligent chatbot powered by **Google Gemini AI**.
- [OP Tracker](#): A premium logbook for tracking **One Piece** watch progress without login — equipped with automatic **filler filter**, **saga & arc** navigation map, and a gamified **pirate rank** system.
- [QR Scanner Presence App](#): A modern **attendance solution** leveraging **QR Code** scanning for instant participant check-in, built on a **Next.js** + **Supabase** stack with **real-time** sync.
- [Malmora \(Reseller & Dropship\)](#): A **reseller & dropship** marketplace tailored for Muslim lifestyle products, enabling anyone to sell without physical stock across **Sulawesi and Eastern Indonesia**.
- [Email Server Makassar Gov](#): A city-scale **Mailcow**-based email cluster serving **200+ official domains** for Makassar City Government, hardened with **SPF/DKIM/DMARC** security protocols and **high-availability** setup.
- [Helpdesk Kota Makassar](#): An **e-government** system for handling **citizen complaints** digitally — featuring **real-time ticket tracking**, automated escalation, and cross-department integration across **Makassar City agencies**.

- **Virtual Museum Makassar:** An immersive digital museum experience with **360° panoramic** tours, interactive **3D artifact** collections, and **audio-visual** narratives preserving South Sulawesi cultural heritage.
- **Al-Haram VR:** A high-precision **virtual reality** simulation of **Al-Masjid Al-Haram** and **Al-Masjid An-Nabawi**, developed in **Unity** and optimized for both **VR headsets** and mobile devices as a Hajj & Umrah educational tool.
- **Paralluta (Lalu Lintas):** A smart platform for **traffic management** in Makassar City — covering **road condition monitoring**, violation logging, and centralized **field officer coordination**.
- **SOP Pelaporan Insiden Siber:** A **SOP** framework and **cyber incident response protocols** designed for **Makassar City Government** IT infrastructure, aligned with **BSSN** and **NIST Cybersecurity Framework** standards.

PROFESSIONAL EXPERIENCE

Regional Office of Ministry of Religious Affairs (South Sulawesi) | Makassar, Indonesia *Computer Specialist (System Admin)* | 2025 – Present

- Lead the administration of regional server infrastructure, managing high-availability deployments for critical public services.
- Manage complex database systems (PostgreSQL/MySQL), ensuring optimal performance and reliable automated backups for 9M+ records.
- Implement robust server monitoring (Zabbix/Prometheus) and security protocols to safeguard regional data.
- Architected digital distribution systems to reach broader regional markets.

Dinas Kominfo & Disbud Makassar | Makassar, Indonesia *System Administrator & DevOps* | 2023 – 2025

- Administered 200+ on-premise servers (physical and virtual), optimizing resource allocation and storage performance for city-wide units.
- Engineered and maintained a secure government mail cluster using Mailcow, handling anti-spam/security for 200+ domains.
- Hardened Linux server security configurations based on industry standards, achieving 99.9% uptime for city-wide services.
- Executed disaster recovery procedures and server migrations during critical infrastructure upgrades.
- Ensured 100% server uptime during high-stakes digital events and National Cyber Exercises (BSSN).

GetKasir (Enterprise POS Startup) | Makassar, Indonesia *Co-Founder (IT Infrastructure)* | 2019 – Present

- Architected and scaled a robust server ecosystem supporting thousands of merchants and millions of retail transactions.
- Managed multi-tenant database environments, implementing advanced replication and tuning for performance.
- Automated routine server maintenance and deployment tasks using custom scripts to increase operational efficiency.
- Scaled infrastructure for retail ecosystem with 100+ modules.

Malmora (Startup) | Makassar, Indonesia *SQA & DevOps Engineer* | 2020 – 2023

- Managed infrastructure for a regional reseller and dropship platform.
- Simplified technical operations for non-technical users by automating logistics and packaging workflows.

EDUCATION

Bachelor of Computer Science (S.Kom) GPA: 3.22 / 4.00

CERTIFICATIONS

- **National Cyber Exercise #10** - BSSN (2024)
- **Samsung Next Apps Winner** - Samsung Indonesia (2017)
- **Microsoft CityApp Participant** - Microsoft

Education

- **Bachelor of Computer Science (S.Kom)** | UIN Alauddin Makassar GPA: 3.22 / 4.00
-

System Administrator Expertise Keywords

Linux (Ubuntu/CentOS), Windows Server, Bash/Shell Scripting, Active Directory, Network Administration, TCP/IP, DNS, DHCP, VPN, Firewall, Nginx, Apache, Virtualization (Proxmox, VMware), Docker, Backup & Recovery, Monitoring (Zabbix, Nagios), Security Auditing, Hardware Maintenance, IT Support.

Future-Ready Technical Roadmap

To stay competitive in the global DevOps & Infrastructure market, I am actively implementing:

- **Zero Trust Architecture:** Identity-aware proxies and 'Never Trust, Always Verify' principles.
- **eBPF Security:** Deep kernel-level observability and real-time security monitoring.
- **GitOps:** Using ArgoCD/Flux for automated and declarative infrastructure synchronization.
- **Serverless Security:** Securing AWS Lambda/Edge functions and automated IAM least-privilege auditing.
