

Syarfandi "Andi" Achmad

Frontend Developer | UI/UX & Web Performance Specialist Makassar, Indonesia | +62 852-5652-2335 | syarfandi.achmad@gmail.com | Portfolio: syarfandi.github.io | LinkedIn

Professional Summary

Creative and technical **Frontend Developer** with 4+ years of experience in crafting immersive, high-performance web applications. Expert in **React**, **Next.js**, and modern CSS architectures to deliver stunning user experiences. Dedicated to building responsive, accessible, and SEO-optimized interfaces that drive engagement. A proactive leader in **asynchronous remote teams**, focused on bridging the gap between design and technology to deliver premium digital products.

Core Technical Competencies

- Frontend Stack:** React, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3.
- Styling & UI:** Tailwind CSS, Framer Motion, Styled Components, Shadcn UI, Responsive Design.
- State Management:** Zustand, Redux Toolkit, React Query (TanStack Query).
- Performance & Optimization:** Core Web Vitals, Code Splitting, Server Components, SEO Strategy.
- Tools & Workflow:** GitHub Actions, Vercel, Netlify, Vite, Webpack, Figma (Design-to-Code).
- Soft Skills:** UI/UX Design Principles, Technical Writing, Remote Collaboration, Agile/Scrum.

Technical Projects

- Kawan Sedarah (Blood Stock):** A **command center** dashboard that tracks **blood stock** availability across donor units in **real-time**, powered by **Supabase** as its core backend.
- Portal Data Sulsei:** A unified information system delivering **data visualization**, **monitoring**, and religious **statistical analysis** across all districts in South Sulawesi in **real-time**.
- AI Virtual Assistant:** A **Conversational AI**-powered virtual assistant featuring **Realtime Lipsync** on 3D avatars, backed by **Voice AI** and **LLM** for immersive conversational interactions.
- GetKasir Enterprise POS:** A large-scale **Enterprise** POS ecosystem with **100+ modules**, integrating **AI-driven** sales prediction, **biometric** authentication, and a scalable **cloud-native** architecture.
- PPID Kemenag Kota Parepare:** A public information disclosure portal for **PPID Kemenag** providing access to **official documents**, **performance reports**, and an intelligent chatbot powered by **Google Gemini AI**.
- OP Tracker:** A premium logbook for tracking **One Piece** watch progress without login — equipped with automatic **filler filter**, **saga & arc** navigation map, and a gamified **pirate rank** system.
- QR Scanner Presence App:** A modern **attendance solution** leveraging **QR Code** scanning for instant participant check-in, built on a **Next.js** + **Supabase** stack with **real-time** sync.
- Malmora (Reseller & Dropship):** A **reseller & dropship** marketplace tailored for Muslim lifestyle products, enabling anyone to sell without physical stock across **Sulawesi and Eastern Indonesia**.
- Email Server Makassar Gov:** A city-scale **Mailcow**-based email cluster serving **200+ official domains** for Makassar City Government, hardened with **SPF/DKIM/DMARC** security protocols and **high-availability** setup.
- Helpdesk Kota Makassar:** An **e-government** system for handling **citizen complaints** digitally — featuring **real-time ticket tracking**, automated escalation, and cross-department integration across **Makassar City agencies**.
- Virtual Museum Makassar:** An immersive digital museum experience with **360° panoramic** tours, interactive **3D artifact** collections, and **audio-visual** narratives preserving South Sulawesi cultural heritage.
- Al-Haram VR:** A high-precision **virtual reality** simulation of **Al-Masjid Al-Haram** and **Al-Masjid An-Nabawi**, developed in **Unity** and optimized for both **VR headsets** and mobile devices as a Hajj & Umrah educational tool.
- Paralluta (Lalu Lintas):** A smart platform for **traffic management** in Makassar City — covering **road condition monitoring**, violation logging, and centralized **field officer coordination**.
- SOP Pelaporan Insiden Siber:** A **SOP** framework and **cyber incident response protocols** designed for **Makassar City Government** IT infrastructure, aligned with **BSSN** and **NIST Cybersecurity Framework** standards.

Professional Experience

Lead Frontend Engineer (Civil Servant) | Ministry of Religious Affairs (Regional Office)

2025 – Present | Makassar, Indonesia

- Led** the frontend development of public-facing digital service portals, ensuring 100% accessibility and mobile responsiveness.
- Developed** the **Data Sulsei** dashboard UI, providing intuitive data visualizations and interactive charts for regional governance.
- Modernized** legacy web interfaces into modern React-based architectures, improving user engagement metrics by 40%.
- Implemented** a shared component library, reducing development time for new internal tools by 50%.

Senior UI/UX Developer | Department of Communication & Informatics (Diskominfo)

2023 – 2025 | Makassar, Indonesia

- Designed** and implemented a unified design system for city government digital services, ensuring visual consistency across 200+ units.
- Optimized** frontend performance for high-traffic public portals, reducing initial load times and improving Lighthouse scores significantly.
- Won** recognition for excellence in UI/UX and web innovation during government-led digital transformation challenges.

Co-Founder | GetKasir (Enterprise POS Startup)

2019 – Present | Remote/Project-based

- Architected** the frontend of an enterprise-grade POS ecosystem with 100+ modules and complex, real-time data interactions.
- Implemented** real-time data synchronization for merchant dashboards using optimized WebSocket integrations and state management.
- Established** frontend testing (Vitest/Cypress) and documentation standards for asynchronous global development teams.
- Optimized** the core POS web interface for low-latency performance on various hardware devices used by merchants.

SQA & Frontend Engineer | Malmora (Startup)

2020 – 2023 | Remote

- Automated** full-stack testing and CI/CD pipelines for a high-scale **Mobile Marketplace Reseller** platform.
- Developed** and maintained the primary reseller dashboard UI, focusing on conversion-driven design and fast interaction.
- Orchestrated** staging environments and automated UI regression testing to ensure seamless feature deployments.

Secretary | Nurul Huda Mosque

2021 – 2026 | Makassar, Indonesia

- Managed** organizational administration and coordinated the 2021-2026 board of directors.
- Optimized** community asset management and digital documentation for the mosque's operations.

Certifications & Awards

- National Cyber Exercise #10** – BSSN (2024)
- Top 10 Winner** – Samsung Indonesia Next Apps 4.0 Gear VR Challenge (2017)
- Microsoft CityApp Appathon** – Participant & Developer

Education

- Bachelor of Computer Science (S.Kom)** | UIN Alauddin Makassar *GPA: 3.22 / 4.00*

Frontend Expertise Keywords

React, Next.js, Vue.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, SASS/SCSS, Framer Motion, Three.js, WebGL, Responsive Design, UI/UX, State Management, Redux, Zustand, React Query, Webpack, Vite, SSR, SSG, Accessibility (a11y), Web Performance Optimization.

Future-Ready Technical Roadmap

To stay competitive in the global Frontend market, I am actively implementing:

- Micro-Frontends:** Architecting scalable frontend systems using module federation and independent deployments.
- WebAssembly (Wasm):** Integrating high-performance C++/Rust modules directly into web applications.
- AI-Powered UI:** Integrating LLMs and generative AI to create smarter, adaptive user experiences.
- Edge-side Rendering (ESR):** Optimizing performance by moving rendering logic to the network edge.
